

13 August 1958

Mr. Richard F. Calhoun
Department of State
Washington 25, D.C.

Dear Dick:

Upon your departure from Washington to Tokyo it seems altogether fitting that we should take notice of your contribution to the Committee on Procurement of Foreign Language Publications and its predecessor the Advisory Committee on Foreign Language Publications. You are well aware of the importance which the community assigns to the publications procurement program. Your efforts to further that program through coordination of the evaluations of the contributions of overt publications to the intelligence process is well appreciated by all members of the community.

The members of the Committee on Procurement join with me in wishing you all good luck in your new assignment.

Sincerely,

25X1A9a

Chairman
Committee on Procurement of
Foreign Language Publications
